How to increase the attendance

National museums and galleries are amazing places, which should be visited not only by tourists, but also by residents of the Great Britain.

I have collected some data on English museums and galleries for three separate years. This is really interesting information that can be helpful for that part of the government, which is reliable for the museums accommodations. Carefully summarizing the data, the attendance of all these museums has been rising every year. Visits to national museums and galleries are becoming more and more popular among the population. This fact can not be disappointing.

Furthermore, I would like to rate the museums and galleries presented in the table by the attendance in 2017. The most often-visited museum was British Museum. Only in 2017 it was visited by 5.6 million people. The least number of visitors had Science Museum, which had 1.6 million visitors. The unbelievably huge difference between these two museums unexpectedly drew on.

Now, I would like to give some recommendations to the museum boards of directors what could be done to increase people's attendance of museums and galleries. First, people who are working in the museum should respectively give any help to every visitor. Second, there should be more advertisement on the streets, offering to visit the attractive museum or gallery for people of all ages.

In conclusion, I believe that more people will be interested in visiting national museums and galleries, because every visit of these places gives you more and more fascinating knowledge.
