ANSWER SHEET

ID number

a - 4 8

St. Petersburg - the future in the present

Have you ever wanted to visit the most modernized city in the world? If so, you have to go to St. Petersburg. Over the last 50 years the city has improved a lot and not visiting it once a life is considered a crime!

1. Flying city

The most amazing thing in this city is apparently (the) flying vehicle (they were invented in 2059 and spreaded out rapidly) - they're like ordinary ground cars integrated into the air. With the invention of flying cars the flying restaurants were invented. We would (recommend) offer you to have lunch in one of these gorgeous restaurants - it's absolutely unforgettable to have a meal surrounded by clouds.

2. Double-cultural city

St. Petersburg is famous for its architecture as well as for (his) its technology. Famous classical buildings have always attracted people from all around the world. St. Petersburg's history is very important for its citizens and government, that's why it's called "double-cultural city" - it consists of great historical culture and great technological progress.

3. People's everyday life

People living here use modernized softwares - so far the best ever invented. Teenagers, studying at schools, are provided latest 3D electronic whiteboards, the curriculum is very convenient for growing people. Come and see how they rest within the breaks!

I beg, you've got interested, haven't you? Well, St. Petersburg is always glad to meet new people!
