Birbidzhan as a top one place to visit in Russian Far East.

Dear readers, I am going to explain how the city of Birbidzhan has changed in last fifty years and why you should visit this place.

I would like to start with the fact that the city can cater for your need whatever you want. For example, if you are looking for swimming in ocean, you can visit human-made sea, which is only forty kilometres away. It was done because fifty years ago the nearest sea was about a thousand of kilometres away. Moreover, people who work here are really highly-paid. It happened because of the guy, whose name is Gill Bates. He has ~~stead~~ created ~~asow~~ a software for the flying cars, which allow the vehicles to fly without driver's help.

The second fact why you should visit the city is that it has the biggest population of the world cities. Therefore, foreigners, ~~or that were not~~ ~~for~~ integrated, have brought different customs and traditions. Because of this, the city has the diversity of the restaurants and ~~the~~ best historical universities of the world.

The reason why the city has become so great is that territory nearby the city is full of oil. That means that a big part of workers are oilers and here was build a museum of ~~oil~~ ~~to~~ the oil revolution in our region. The unique flying metro was created here because it needs too much oil and here work the best scientists of the world.

I hope you became interesting in visiting the city while reading my description. Welcome! Come here any day. Welcome!
