30		40	O

ANSWER SHEET

ID number

A-47

The guidebook entry about Birobidzhan.

I live in the one of Russian towns. It is called Birobidzhan. I believe that in 50 years this place will be prosperous and appealing for everyone for its places of interest, conditions for working, studying, spending free time and so on.

In 2070 my town will be larger than it is nowadays and it will have more habitats. There will also be remarkable sights for visiting, such as, big parks or huge shopping malls. I am sure that everyone will be able to find a place of his or her own interests, such as, an art gallery, sports fields or playground or an antistress cafe. However, I think that familiar places which are familiar for us will change a lot and will become more related to new technologies. Furthermore, travelling will be developed for visitors from any country and it will make a great income for my town. Moreover, ~~the food will be better~~, people will eat, work, study and spend their free time in another way. For example, meals will be provided by the government and ^{their software will be healthier than it is now} ~~they will not waste time in cooking~~. Also, getting to work and school will become easier and faster because of inventing new types of ~~cars~~ ~~vehicles~~ transport. For instance, vehicles will be replaced by planes. Even working and studying processes will take less time because of using robots with artificial brains. And spending free time will be unrecognisable for a modern human, because it will use technologies too. For example, ~~reading a book~~ watching a film will be more interesting ~~beca~~ exciting because you will participate in it.

Now, I hope you are interesting in visiting my town in 50 years.
